TODAY & TOMORROW

FEBRUARY 11-24, 1984

ADDRESS CORRECTION REQUESTED **RUSH — TIME DATED**

(Newsbriefs continued)

The Friends of Langley Porter Psychiatric Institute has contributed $7,000 to the LPPI Patients' Benefit Fund, bringing the total to $29,700 that the Friends have contributed to the fund over the last 10 years. The fund pays for activities not covered by tax dollars, including newspaper and magazine subscriptions for all patient units, toys for the children's outpatient waiting rooms, outings for LPPI children and adults, theatre and symphony trips, camping and rafting trips and a new minibus.

The University Research Expeditions Program (UREP) now is recruiting people who want to share in the excitement of scientific discovery as active members of small research expeditions in the US and abroad.

Expeditions in 1984 include excavating ancient Mayan sites in Belize, observing behavior of the world's smallest penguins in Australia and studying 200-million-year-old fossils in Nevada. Contributions for these and other expeditions start at $525 and include food and accommodations; air fare is separate. Most participants join the expeditions for two to four weeks. No special academic or field experience is necessary for most projects.

For a free catalog describing all expeditions contact University Research Expeditions Program (UREP), University of California, Berkeley, Desk 3984, Berkeley, CA 94720 or call 642-6586.

DEADLINE

Deadline for the next issue of *Today & Tomorrow,* covering the time period Feb. 25-Mar. 9, will be **Tuesday, Feb. 14, 11 a.m.** Please send your copy to Allen Balderson, News & Public Information Services, 532 Parnassus Ave., Rm. 300, x1541 or x2557.

(SFGH continued)

TUESDAY 21

ORTHOPAEDIC SURGERY GRAND ROUNDS. Rm. 4H2. 8 a.m.

PEDIATRIC GRAND ROUNDS: *The Surgical Abdomen in Pediatrics.* Michael Harrison, Surg. *Inflammatory Bowel Disease—An Update.* Jay Perman, Ped. Carr Aud. 8:30-10 a.m.

MEDICINE GRAND ROUNDS: *Hypothermia.* Paul Auerbach, Med. & Surg.; H. Barrie Fairley, Anesth. Carr Aud. 11:30 a.m.

WEDNESDAY 22

UROLOGY GRAND ROUNDS. SFGH Cafeteria. 7:30 a.m.

THURSDAY 23

NEUROLOGY-NEUROSURGERY CONFERENCE. Rm. 4H2. 8 a.m.

TRAUMA CENTER CONFERENCE: *Resuscitation.* Donald Trunkey, Surg., SFGH. Rm. 4H40. 8:30 a.m.

NORTHERN CALIFORNIA OCCUPATIONAL HEALTH CENTER GRAND ROUNDS: *Controversies & Updates in CPR.* Edward C. Geehr, Med., SFGH. Carr Aud. 8:30-10 a.m.

FAMILY PRACTICE GRAND ROUNDS: *Evaluation of the Patient with Pulmonary Nodule(s).* John Luce, Anesth. & Chest Serv. SFGH. Carr Aud. 12:30-1:30 p.m.

FRIDAY 24

MAXILLOFACIAL TRAUMA CONFERENCE. Rm. 4H40. 7 a.m.

CONTINUING EDUCATION

DENTISTRY

Held in C 701. For further information call x1101.

Endodontics. Feb. 24.

Tissue Management & Impression Making in Fixed Prosthodontics. Stockton. March 8.

Current Trends in Periodontics. March 9 & 10.

PSYCHIATRY

For further information call x77-554.

Mind & Medicine Series: Expanding Horizons: Psychosocial Interventions with Sensorially Disabled Persons. Holiday Inn Golden Gateway, SF. Feb. 25 & 26.

General Psychiatry Board Review & Update. Holiday Inn Golden Gateway, SF. March 23-25.

MEDICINE

For further information call x4251, unless otherwise noted.

Intensive Residency in Occupational Medicine. Toland Hall. Feb. 13-24. For further information call x5208.

Pulmonary & Critical Care Medicine: A Practical Approach. Aspen, CO. Feb. 25-March 3.

Current Approaches to Radiation Oncology, Biology & Physics. Fairmont Hotel, SF. Feb. 29, March 1 & 2.

RADIOLOGY

For further information call x5731.

Diagnostic Radiology Seminars. Ixtapa, Mexico. Feb. 20-24.

Diagnostic Radiology Seminars. Fairmont Hotel, SF. March 12-16.

Diagnostic Radiology Seminars. Tahiti. March 19-23.

"If approved, the Governor's budget will be a major turning point in the University's history," says UC President David P. Gardner. "The budget does more than just hold the line; it reverses the long period of deterioration that we have been experiencing."

The 1984-85 budget, if approved, will give faculty and staff increases in salaries and benefits that will make them competitive with salaries in other institutions by January 1985. There also are funds for improving instruction, research and maintenance, and for the first time in many years the budget contains an encouraging capital improvement program.

The specific allocations from Governor Deukmejian's 1984-85 budget to UCSF and other UC campuses will be determined by the President's Office after the final budget is approved by the Legislature.

UCSF alumni will have a chance to discuss the budget with the Governor and members of the Legislature at the annual all-campus, UC Alumni Association meetings Monday and Tuesday, March 5 and 6, in Sacramento. Alumni delegates and UC President Gardner, Chancellor Krevans and Yori Wada, chair of the UC Board of Regents, will meet with key representatives and staff aides and will attend a Sacramento press and media forum for an "inside view" of the state capitol.

A briefing with UC legislative representative Steve Arditti will be held for all UCSF alumni delegates on Thursday, February 23, from 5 to 7 p.m. at the Faculty/Alumni House. For further information on the Sacramento meetings call the UCSF Alumni Affairs Office at x4723.

Plans are underway for the celebration and kick-off party to launch the Third Annual Founders Day, Friday, March 23, from 4 to 6:30 p.m. in the Millberry Union gym.

The entire campus community is invited to dance to live bands, drink with their friends and munch on assorted goodies at the party held in honor of us—the students, staff and faculty of UCSF.

Founders Day will take place on Saturday with two major talks on the day's theme of "Research in Service to Humanity." UC President David P. Gardner will talk on "Advancement of Knowledge: The Cornerstone of a University," and Chancellor Julius R. Krevans on "UCSF's Distinction in Research—What It Means to People." Both talks will be given in Cole Hall beginning at 1:30 p.m.

A portrait of the late Willard C. Fleming, former UCSF chancellor and former dean of the School of Dentistry, will be unveiled in the Medical Sciences lobby at 11:45 a.m., followed by a picnic lunch in the Millberry Union gym. For lunch tickets call x2401.

School of Medicine faculty will give a morning scientific presentation, the schools of Dentistry, Nursing and Pharmacy will host alumni breakfasts, and there will be tours of the Library and research and clinical areas in the new hospital, and an open house at the Faculty/Alumni House.

A public hearing on a Draft Environmental Impact Report (DEIR) for UCSF's proposed Vision Research Laboratory will be held Thursday, February 16, at 7 p.m. in Toland Hall.

The campus community and neighborhood are invited to attend to express their views on the Draft EIR. Those attending will be given the opportunity to testify regarding any perceived environmental effects of the proposed Vision Research Laboratory building. The prescribed format is to receive public testimony to which the campus will re-

Institutional Barriers to Higher Education. Leith Mullings, Soc. Sci., City College, NY. 12:45 p.m.

Faculty Mentoring of Minority Graduate & Professional Students: The Irvine Experience. Jaime Rodriguez, Grad. Stud. & Res., UCI. 1:30 p.m.

Promoting Academic Excellence Among Minority Students: Why Some Efforts Succeed & Others Fail. Uri Treisman, Prof. Develop. Prog., UC-Berkeley. 2:15 p.m.

The Future of Affirmative Action. John Vasconcellos, Assembly Ways & Means Committee. 3 p.m.

The Direction of Affirmative Action in the UC System. Yori Wada, UC Board of Regents. 3:45 p.m.

COMMUNITY HEALTH LECTURE FEB 22

Exploding Myths about Dental Health. Norma K. Francisco & Brian J. Swann, both Schl. Dent. Toland Hall. 7:30 p.m. Free.* Free parking also available. For further information call x3206 or x2571.

23 THURSDAY

OPHTHALMOLOGY GRAND ROUNDS: *Orbit Floor Fracture: Indications for Intervention.* Greer Geiger, Oph. S 214. 9:15 a.m. Preceded by Patient Exams & Discussions: *Retina.* Alexander Irvine, Oph. 8 a.m.

PEDIATRIC GRAND ROUNDS. S 664. 8:30 a.m.

PROCTOR FOUNDATION RESEARCH SEMINAR: *Pathogenic Coagulase Negative Staphylococci.* Ira G. Wong, Oph. Hind Library, 95 Kirkham St. 11 a.m.

NEUROLOGY GRAND ROUNDS: *The Myasthenic Syndrome.* Robert G. Miller, Neuro. S 664. 11 a.m.-12:05 p.m.

PEDIATRIC TUMOR BOARD. M 372. 11 a.m.-12:15 p.m.

UCSF/MOUNT ZION GERIATRIC GRAND ROUNDS: *Long-Term Care—Latest State & Federal Initiatives.* Philip Weiler, Community Hlth., UCD. Herbst Hall, Mount Zion. Noon.

TOPICS IN MEDICAL ANTHROPOLOGY: *Psychic Surgeons: Healers or Hoaxes.* Robert Steiner, Bay Area Skeptics. HSW 302. Noon-1 p.m.

SCHOOL OF DENTISTRY DEAN'S SEMINAR: *Advances in Diagnostic Radiology.* Alexander R. Margulis, Radiol. C 701. 12:30-2 p.m.

NEURO-ONCOLOGY CONFERENCE. L 34. 12:30-2 p.m.

COMBINED HEMATOLOGY ROUNDS. M 1296. 1:30-2:30 p.m.

RHEUMATOLOGY/CLINICAL IMMUNOLOGY RESEARCH CONFERENCE: *Structural Analysis of Idiotypes.* Joseph M. Davie, Microbio. & Immuno., Washington U, St. Louis. HSW 300. 3-4 p.m.

ACADEMIC SENATE REPRESENTATIVE ASSEMBLY MEETING. To include announcement of the 27th Faculty Research Lecturer. HSW 301. 4 p.m. (See Newsbriefs for details.)

ORTHOPAEDIC SURGERY CLINICAL GRAND ROUNDS. A 630. 4 p.m.

NEURORADIOLOGY GRAND ROUNDS. HSW 303. 4-5 p.m.

Noon.

REPRODUCTIVE BIOLOGY SEMINAR: *Creatine Kinase as a Marker for Hormone Action.* A.M. Kaye, Hormone Res., Weizmann Inst. of Sci., Israel. M 1484. Noon.

PATHS OF HEALING & WHOLENESS SEMINAR: *The Ancient Art of Laying on of Hands.* Rev. Rosalind Beal, Church of Loving Hands, Mill Valley. N 517. Noon-1 p.m.

COLE HALL CINEMA: *Frances.* Children under 14, $1.25; UCSF students & MU members, $1.75; general, $2.25. Cole Hall. 6:30 & 9 p.m.*

HEALTH PROMOTION PROGRAMS

Open to all campus employees. To register call x3206.

Weight Loss Support Group. Tues. N 505. 1-2 p.m.

Tai Chi. Thurs. LPPI 323. 5-6 p.m.

DEVELOPMENT & TRAINING PROGRAMS

Open to all UCSF employees. To register call x4032.

Writing & Editing Professional Journal Articles. Mon. & Wed., Feb. 13-29. 10 a.m.-noon. $20.

Clerical Staff's Guide to Business English. Wed., Feb. 22-Mar. 14. 1-3 p.m. $20.

Performance Evaluation Workshop. Feb. 23. 8:30 a.m.-4:30 p.m. $5.

Managing the Computer Transition. Feb. 24. 9 a.m.-4:30 p.m. $25.

PATHOLOGY GRAND ROUNDS: *Inflammatory Skin Disease.* Philip LeBoit, Path. HSW 508. 5 p.m.

COMMUNITY HEALTH LECTURE FEB 22

Exploding Myths about Dental Health

MEDICINE/SURGERY ADULT CARDIAC CATHETERIZATION CONFERENCE. L 1361. 4-6 p.m.

PRIMARY CARE GRAND ROUNDS: *Peripheral Arterial Disease.* Linda M. Reilly, Surg. A 455. 4:30 p.m.

OPERATIVE UROLOGY CONFERENCE: *Renovascular Hypertension.* James R. Palleschi, Urol. M 460. 4:30-6 p.m.

JOINT UCSF/UC-BERKELEY BIOENGINEERING SEMINAR: *Objective Visual Acuity in Preverbal Children.* Elwin Marg, Optometry, UC-Berkeley. N 721. 5 p.m.

RADIATION ONCOLOGY GRAND ROUNDS: *Journal Club.* L 75. 5 p.m.

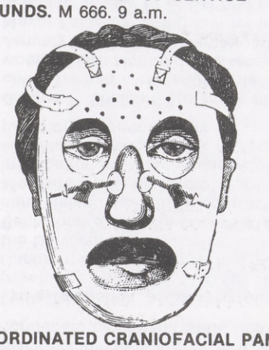

NEUROSURGERY GRAND ROUNDS. HSW 302. 5-6:30 p.m.

RADIOLOGY GRAND ROUNDS: *New Imaging Applications & Other Facts Your Representative Didn't Tell You When You Bought CT & Digital Units.* Christopher E. Cann & Robert G. Gould, both Radiol. HSW 303. 5:30-6:30 p.m.

24 FRIDAY

PULMONARY PHYSIOLOGY SEMINAR: *UC Case Presentations.* L 1361. 8:10-9:30 a.m.

PEDIATRICS CHIEF OF SERVICE ROUNDS. M 666. 9 a.m.

COORDINATED CRANIOFACIAL PANEL. Center for Craniofacial Anomalies, Schl. Dent. Toland Hall. 9 a.m.-noon.

CLINICAL CONFERENCE OF THE LPPI CHILD & ADOLESCENT SERVICE. LPPI Aud. 10-11:30 a.m.

CONSULTATIVE TUMOR BOARD. M 372. 10:45 a.m.

PHARMACEUTICAL CHEMISTRY 221 SEMINAR: *Biosynthesis & Receptor Binding of Leukotrienes.* Robert W. Egan, Merck Inst. for Therapeutic Res., NJ. S 1364. 11 a.m.

CLINICAL NEUROLOGY CONFERENCE. A 884. 11 a.m.

ANATOMY SEMINAR: *Environmental Control of Neural Crest Development: A Re-evaluation.* James A. Weston, Bio., U Oregon. HSE 1309. Noon.

REPRODUCTIVE BIOLOGY SEMINAR: *Creatine Kinase as a Marker for Hormone Action.* A.M. Kaye, Hormone Res., Weizmann Inst. of Sci., Israel. M 1480. Noon.

PATHS OF HEALING & WHOLENESS

NEWS BRIEFS

(DEIR hearing continued)

pond at a later date on the completed EIR.

The proposed laboratory, to be constructed on the interior of the west side of campus, is planned as the hallmark of a total UCSF Vision Research Center, to which the National Eye Institute has given the largest construction grant in its history. The Center will fill a national need for in-depth, long-term studies of eye diseases.

Copies of the Draft EIR may be obtained from Eric Vermillion at x2911, or through the Chancellor's Office at 145 Irving Street. The formal review period for entering written statements into the hearing record for the EIR will be kept open until 5 p.m. on March 12.

Nobel laureate Nicholaas Bloembergen will present the Hitchcock Lecture, "Lasers in Science and Technology," on Thursday, March 1, at 3 p.m. in Room HSW 302.

Bloembergen, who is the Garhard Gade University Professor in the Division of Applied Sciences at Harvard, won the Nobel Prize in Physics in 1981. He holds membership in the National Academy of Sciences and the American Philosophical Society, and is a fellow of the American Academy of Arts and Sciences and the American and Dutch physical societies.

As a Hitchcock Professor for the academic year 1983-84, Bloembergen will lecture at UCLA on February 21, be in residence at UC-Berkeley February 22 to March 8, lecture there on February 23 and 27, and present a lecture at UC-Davis on March 2.

The Representative Assembly of the Academic Senate will meet on Thursday, February 23, at 4 p.m. in HSW 301. Chair John Greenspan will report on the Governor's budget and its effect on health sciences, Associate Administrative Vice Chancellor Tom Rolinson will provide an update on campus planning developments and Peter Dallman, chair of the Committee on Research, will announce the committee's choice for the 27th Faculty Research Lecturer. All Senate members and faculty are welcome to attend. For further information call x1307.

The Sheridan-Flynn Infant Clothier at 3462 Sacramento Street is donating 10% of the store's gross sales on Valentine's Day, Tuesday, February 14, to the UCSF Intensive Care Nursery. Last year the owners of the store staged a "Baby Valentine" infant fashion show, which donated $5,000 to the ICN.

A convocation to commemorate the life, achievements and legacy of Marion B. Sulzberger, MD, will be held on Monday, March 5, at 4 p.m. in Toland Hall.

Speakers will include Chancellor Krevans; Dean Rudi Schmid; William Akers, former chief of dermatology at LAIR; William Epstein, UCSF dermatology chair; Howard Maibach, vice chair; S. William Levy, clinical professor; Reese B. Reese, former chair; and Victor Witten, former professor. A reception at the Officer's Club in the Presidio will follow the convocation.

Sulzberger, who died in November of last year, was a UCSF clinical professor emeritus of dermatology. He was a leader for many years in dermatologic education and practice, and early in his career made significant research contributions in the field of immunology. He served as clinical professor from 1961 to 1980 and as an attending dermatologist from 1966 to 1980.

Sulzberger was honored last year by a Congressional act establishing a chair in dermatology at the Uniformed Services Medical School in Bethesda, Maryland. For further information on donating to the established chair or the March 5 convocation and reception, call the Department of Dermatology at x2545.

The 11th Robert B. Aird Visiting Professor of Neurology is C. David Marsden, MD, professor of neurology and head of the University Department of Neurology, Institute of Psychiatry and King's College Hospital Medical School, London.

Marsden will present the Aird Lecture, entitled "The Cause of Parkinson's Disease," on Thursday, February 16, at 11 a.m. in Room S 644. He will be in residence in the Department of Neurology from February 13 to 16 and will take part in teaching conferences and ward rounds at the VAMC on Monday and SFGH on Tuesday. He also will present "Difficult Movement Disorders," at the San Francisco Neurological Society meeting on Wednesday at 8:15 p.m. at the St. Francis Yacht Club.

Internationally recognized for his contributions to the study of movement disorders, Marsden is a fellow of the Royal Society.

The lectureship honors Robert B. Aird, MD, professor emeritus of neurology, who was chair of the department from 1947 to 1966.

The Women, Health and Healing Project is compiling a roster of UCSF researchers who work on issues in or related to women's health for distribution on campus during International Women's Day, Thursday, March 8.

Any faculty or graduate student who would like to be included on the roster should contact Patricia Anderson at x5455 or go to Room N 631Y for a form. Roster forms should be returned by Thursday, March 1.

Sheryl Ruzek, PhD, Virginia Olesen, PhD, and Ellen Lewin, PhD, of the Department of Social and Behavioral Sciences, School of Nursing, direct the innovative Women, Health and Healing Project which is sponsored by the US Department of Education Fund for the Improvement of Post-Secondary Education.

For details on all the campus events on International Women's Day, see the next issue of *Today & Tomorrow*.

Nominations now are being accepted for the 16th annual Kaiser Awards for Excellence in Teaching.

The Kaiser Awards, which were established by the Henry J. Kaiser Family Foundation, are open to any member of the School of Medicine faculty who is active in teaching undergraduate medical students and/or housestaff. This year, three awards of $750 each will be presented.

Nominations may be submitted by students, housestaff or faculty and should include a brief description of the nominee's teaching responsibilities, effectiveness of presentation, and ability to stimulate interest and self-education. Supporting letters from students and peers and other appropriate documentation is encouraged.

Nominations should be sent before Wednesday, February 29, to: Chair, Committee on the Kaiser Awards, School of Medicine Dean's Office, S 224.

The Community Health Education Program (CHEP) needs additional speakers to present health talks to senior citizens.

CHEP provides much-needed health promotion discussions to some 40 senior sites throughout the City. Topics include arthritis, backaches, cardiac care, exercise, eye care, stress, kidney problems, nutrition, drugs, sexuality and many more. The discussions last approximately one hour and provide a vehicle for meaningful dialogue between the seniors and the educator. The Office of Public Service Programs provides transportation for the lecturer to the senior center.

Some 120 UCSF faculty, staff and students have already donated their time, but they need help and relief. For further information contact David Bracker at x3206.

UCSF researchers working on this campus and at Mount Zion Hospital have been awarded a $4 million NIH grant to collaborate in the first comprehensive study of the "exocrine" pancreas.

The five-year study will examine how various substances made in the body direct the pancreas to secrete its daily quart of juice and enzymes to promote normal intestinal digestion. In addition, the researchers will study diseased pancreatic tissue to shed light on how exocrine cells, the cells that manufacture pancreatic enzymes and juice, contribute to various disorders.

John A. Williams, MD, professor of physiology and medicine and vice chair of physiology, is director of the project. Other members of the research team include Ira D. Goldfine, MD, associate professor of medicine and physiology and director of the Mount Zion Cell Biology Laboratory; William J. Rutter, PhD, professor, biochemistry and director of the UCSF Hormone Research Laboratory; and Seth Hootman, PhD, assistant professor of physiology.

Previously, research has concentrated on the "endocrine" pancreas or the "Islets of Langerhans," which are tiny cell clusters that produce the insulin vital to maintaining the proper level of sugar in the blood. Much less is known about the "exocrine" pancreas, which accounts for the other 98 percent of pancreatic tissue.

Some 1600 UCSF dental alumni met in San Francisco in January for their 88th Annual Scientific Session which featured former US Congressman Paul N. (Pete) McCloskey, Jr., as the keynote speaker. Educational sessions during the two-day meeting included an update on restorative materials, periodontal disease, role of fluoride, prosthodontics and oral surgery. President of the UCSF Dental Alumni Association is John W. Schmidt, DDS, assistant clinical professor of dental public health and hygiene. President-elect is Donald Martin, DDS, associate clinical professor, restorative dentistry.

Physicians who would like to know more about computers and how they can be applied to medicine are invited to attend a two-day course at St. Luke's Hospital on Saturday and Sunday, March 3 and 4.

The basic concepts of computer science, introduction to terminology, hardware, software and operating systems will be covered with hands-on instruction.

The course is sponsored by UCSF Medical Information Sciences and St. Luke's Hospital. Enrollment is limited. CE credit is available. For registration information contact Hyo Kim, MD, at 665-9618 or Peter Harrison, MD, at x2951.

The UCSF Faculty Wives will visit UC-Santa Cruz on Wednesday, March 7, to hear Chancellor Robert Sinsheimer speak and to have luncheon with faculty wives from other UC campuses. They also will tour the 2000-acre UC-Santa Cruz campus. The luncheon will be held at 11:30 a.m. at the UCSC University House. For transportation information and reservations contact Mrs. David Allen at 388-2883 before Wednesday, February 22.

HONORS & AWARDS

John W. Severinghaus, professor, anesthesia & CVRI: Invited to Oxford University as the 1984-85 Litchfield Lecturer. Severinghaus will spend six weeks at Oxford providing clinical instruction.

Charles B. Wilson, professor & chair, neurological surgery; director, Brain Tumor Research Center: Named "Neurosurgeon of the Year" by the journal *Surgical Neurology*.

Ernest Newbrun, professor, oral biology, Department of Stomatology, School of Dentistry: Appointed a consultant to the Division of OTC Drug Evaluation, Food and Drug Administration's National Center for Drugs & Biologics.

William K. Hamilton, vice dean & associate dean, clinical & professional affairs, School of Medicine: Selected as one of five 1984-85 Royal Society of Medicine Foundation Visiting Professors.

Theodore L. Phillips, professor & chair, radiation oncology: Elected president, American Society of Therapeutic Radiologists & Oncologists (ASTRO), effective Oct. 1984.

Harold E. Varmus, professor, microbiology: Selected as the Fourth Simon M. Shubitz Cancer Lecturer, University of Chicago, May 1984.

Diana Petitti, assistant professor, family & community medicine: Appointed to the NIH Ultrasound Task Force to develop recommendations concerning the use of ultrasound imaging.

Nancy McCabe, coordinator, Parent Support Group: Awarded a California March of Dimes $2,000 grant for a new Parent Support Group Parent's Handbook.

Margretta M. Styles, dean, School of Nursing; professor, mental health & community nursing: One of two prominent nurses named the first Distinguished Scholars of the American Nurses' Foundation.

Nicholas L. Petrakis, professor, preventive medicine; chair, epidemiology & international health; research associate, family & community medicine & CRI: Hellenic-American Professional Society's Axion Award.

Robert E. Staples, associate professor, social & behavioral sciences, School of Nursing: Selected as one of the top 15 black sociologists in the US in a survey conducted by Indiana State University.

Lydia Temoshok, assistant professor, psychiatry: Two-year, $186,496 National Cancer Institute collaborative grant with the University of Pennsylvania, for "The Behavioral & Clinical Course of Malignant Melanoma." UCSF coinvestigators are **Marsden S. Blois,** professor, medical information sciences & dermatology, and **Richard W. Sagebiel,** professor, pathology & dermatology.

George F. Sheldon, professor, surgery; chief, Trauma & Hyperalimentation Services, SFGH: Honored at a reception on January 25 with a proclamation from Mayor Feinstein citing him for his outstanding service to SFGH and to the people of San Francisco. Sheldon, who has been at SFGH since 1972, will leave the University at the end of February to become professor and chair of the Department of Surgery at the University of North Carolina, Chapel Hill.

APPOINTMENTS

Frances S. Petrocelli: Assigned responsibility for campus-wide alumni programs & appointed executive director of the UCSF Foundation, where she assumes all management responsibilities. She replaces Assistant Chancellor **Brad Barber,** who will remain as legal counsel to the Foundation. Petrocelli, who has been assistant chancellor since 1977, has been on campus for some 20 years. She has served four chancellors and is a former assistant director of the Institute for Health Policy Studies.

Barbara R. Stumpf: Appointed assistant director, Nursing Services. Stumpf, who oversees nursing for the Moffitt/Long Hospitals surgical units, had been the director of nursing in critical care at Sinai Hospital in Detroit since 1981.

Michael J. Drennan: Appointed director of the Caleb G. Clark Potrero Hill Health Center, effective Jan. 1. He has been assistant clinical professor of family & community medicine since 1981. **Peter Ewald,** assistant clinical professor, pediatrics, has served as acting director since the death of Robert Ross in July of last year.

PUBLICATIONS

Anselm Strauss, professor, social & behavioral sciences, School of Nursing: Editor of *Where Medicine Fails,* fourth edition (Transaction, Rutgers University, New Brunswick, NJ, 1983). Contributing authors from the department include: **Shizuko Fagerhaugh, Barbara Suczek, Carolyn Wiener** and **Irma Zuckermann.**
